## JASON HAIM NAMED MANAGING PRINCIPAL OF PERKINS EASTMAN, LOS ANGELES

### Company Expands its West Coast Presence

**New York, NY (July 18, 2017)** Perkins Eastman, one of the largest design firms in the world, today named Jason J. Haim AIA, LEED AP, Managing Principal of the Los Angeles office. Haim is currently a Principal at Perkins Eastman and is on the firm's Board of Directors. As Managing Principal, Haim will continue to grow the firm's highly respected and innovative Healthcare practice, and help lead the expansion of the Large Scale Urban Development, Higher Education, Science and Technology, Hospitality Design, Senior Living, and K-12 practices in Los Angeles.

Bradford Perkins FAIA, Chairman of Perkins Eastman says, "As the firm continues to build our presence along the West Coast, we are pleased to name Jason, a proven leader, as Managing Principal of our Los Angeles office. Jason has a stellar track record. He's dedicated his career primarily to the design and management of large-scale projects for some of the most complex design challenges over the last 25 years."

"It's an honor to be named Managing Principal and to become more involved in the leadership of not only Los Angeles, but the company," says Haim. "Our team is collaborative and having additional complementary practice areas will allow us to serve our clients in new and interesting ways."

Known for tackling complicated, multifaceted design challenges Haim's projects range from \$1M remodels to \$550M replacement projects, totaling more than 2.5 million square feet. His attention to design and his technical knowledge have created innovative environments for clients including the University of California, Marin General Hospital, Cedars-Sinai Medical Center, USC University Hospital, Stanford University Medical Center, and Kaiser Permanente, among others.

Previously, Haim was a Partner and Co-managing Principal at Lee, Burkhardt, Liu (LBL Architects), a leader in healthcare design in California, before LBL Architects merged with Perkins Eastman in 2015.

“Having worked with Jason for years, I know the vision, leadership, and creativity he will bring to his new role as we expand our West Coast presence,” says Erich Burkhart FAIA, a Principal and member of the Executive Committee of Perkins Eastman, who was a Founding Partner and Principal of LBL Architects. “I look forward to collaborating even more closely with Jason in the future than we have in the past.”

In an increasingly interconnected world, Perkins Eastman seamlessly leverages the best and brightest minds from across the globe and offers clients an international perspective combined with local insight to solve some of the most complex design challenges.

Perkins Eastman believes architecture can have a direct, positive impact on people’s lives and the growing convergence in the design of certain building types encourages the transmission and application of best practices that will result in a more inspired design solution.

## About Perkins Eastman

Perkins Eastman is among the top design and architecture firms in the world. With almost 1,000 employees in 15 locations around the globe, Perkins Eastman practices at every scale of the built environment. From niche buildings to complex projects that enrich whole communities, the firm’s portfolio reflects a dedication to progressive and inventive design that enhances the quality of the human experience. The firm’s portfolio spans from high-end residential, commercial, hotels, retail, office buildings, and corporate interiors, to schools, hospitals, museums, senior living, and public sector facilities. Perkins Eastman provides award-winning design through its offices in North America (New York, NY; Boston, MA; Charlotte, NC; Chicago, IL; Dallas, TX; Los Angeles, CA; Pittsburgh, PA; San Francisco, CA; Stamford, CT; Toronto, Canada; and Washington, DC); South America (Guayaquil, Ecuador); Middle East and North Africa (Dubai, UAE); and Asia (Mumbai, India, and Shanghai, China).
