

Perkins Eastman Carbon Offset Disclosure

At Perkins Eastman, we are committed to reducing our environmental impact. To support our goal of operational carbon neutrality, we have purchased third-party verified carbon offsets. Our greenhouse gas (GHG) inventory for 2023 was independently verified by Verdis Group, and our voluntary carbon offsets (VCOs) were managed and verified by Cloverly.

In compliance with California AB 1305, we disclose the details of our 2023 carbon offset portfolio:

Total Carbon Offsets Purchased: 1,209 mT CO₂e

Distribution of Offset Mechanisms:

- Removal-based Offsets: 472 mT (39.05%)
- Avoidance-based Offsets: 737 mT (60.95%)

Project Name	Location	Mechanism	Amount (mT CO ₂ e)	Registry & Project ID
CO ₂ Utilization in Concrete	USA (Atlanta, GA)	Removal	36	Verra (VCS3207)
Advanced Refrigeration	USA (Sparta, NJ)	Avoidance	597	ACR (ARS2019001)
Bukaleba Forest Project	Uganda	Removal	400	Verra (VCS799)
Buena Vista Heights Conservation Area	USA (Elizabeth Township, PA)	Avoidance	140	City Forest Credits (CFC009)
Indian Carboneers Biochar	India (Kendraparra)	Removal	36	Carbon Standard Int'l (CC-001)

Third-Party Verification:

- GHG Accounting Verified By: Verdis Group (April 2024).
- Carbon Offset Purchases Verified & Managed By: Cloverly.
- All offsets were retired on their respective registries, listing Perkins Eastman as the emissions reduction claimant.
